Hi Lucita – FYI, Kimi had provided the last set of ORC comments, and I plan to route this through her. Would you like this routed to you as well?

Bruce

Subject: Final Review of ESA Documentation for Dewey Burdock Permits

Bruce: in a meeting with Darcy today, we told her that there are no outstanding substantive issues or comments to address with the ESA documentation you have prepared. At this point, I would like you to provide us with the current version of the BA and accompanying cover letter to USF&WS so that we can give it one more review to ensure that it is ready to be formally routed for signature.

Valois: do we have language in the Fact Sheets (SOBs) for our permits that references our ESA documentation?
